

RIGHT STUFF EQUIPMENT

CP1 FILLER / CROWNER

At Right Stuff Equipment, we understand that yours is an artisan endeavor. As your beer reaches more of the public, it's critical that your beer maintain its quality and consistency.

The CP1 Filler/Crowner is designed to protect product integrity as you move your beer into bottles. Our fillers features allow you complete control throughout the bottling process.

TECHNICAL SPECIFICATIONS

With our manual operation, you have control of:

- Evacuation of Air
- CO2 Pressurization
- Counter-Pressure Filling
- Flow Rate Control
- Crowning in Place
- Crowns Multiple Bottle Sizes
- All Stainless Steel Construction
- EJ Beverage® Flexoline 135 C Product Tubing
- Swagelok & Clippard Components Used

All machines are designed to keep your D.O. levels as low as possible. You can fill and crown any standard bottle size from stubby to 750ml. Just let us know what you want to fill and we'll supply the appropriate bottle seats.
